

Coaches, Consultants and Therapists:
energize to hypertransform® the Supporter World

Your Challenge

As a consultant, unlike a coach, you use your knowledge to address the content with concrete solutions and recommendations. The customer is responsible for the implementation. This expert knowledge makes you unique and obsolete in terms of artificial intelligence. The time has come to redefine yourself and in doing so, become more aware of unimagined and/or unused skills. At the same time, there are circumstances that need to be considered and hurdles that need to be overcome. I support you with my methods of the future, because our future needs people like you.

Your Solution

- You discover yourself and your self in the context of the whole more holistically and recognize unexpected contexts, unblock and multiply power, get essential knowledge and insights, develop underestimated skills and successfully enter more suitable new territory.
- You learn to distinguish the self from the ego and recognize how achieving your own goals works in a way that is also better for the whole. Success follows who follows the self.
- You grow beyond yourself and you get a more consciously defined vision, also by processing the past and working on the present, incl. supervision, and become the future you want.

Your Added Value

- You begin to build the connection to yourself much more profoundly and holistically, from which self-love can emerge. Self-love promotes self-awareness as the basis of self-worth, from which new values emerge. This emergence is a consequence of the more holistic view, from which the monetary situation also develops.
- You gain clarification, solution finding and foresight for you, also in acute situations, and for your relationships and your higher call.
- The development of consciousness, power, knowledge and ability leads to the creation of more of the more consciously wanted realities.
- Learning and experiencing self-empowerment leads to sustainable self-unfolding, from which the experience of holistic success is derived.

Methods of the Future

- This new age requires to approach developments more holistically and effectively/efficiently with acceleration what these methods enable.
- These methods are based on science, spirituality, strong intuition and phenomenology:
- Becoming aware of the Unconscious with different techniques, Program-Recognition and Re-Programming incl. Constellations, Purpose, Vision and Intentionalization, Personal- and Corporate Energizing, Strategic Intuition, Back-casting and Leadership of HyperTransformation.
