

Coaches, Consultants and Therapists:
energize to hypertransform® the Supporter World

Your Challenge

As a therapist, your field of work differs greatly from that of coaches and consultants, since you refer to your clients as patients on the basis of pathological diagnoses and accompany them in healing processes. You are thus much more deeply confronted with the psyche of a person, which presupposes the correspondingly increased attention to one's own well-being. To meet this prerequisite is not easy for various reasons, but it's more feasible if you are better aware about yourself and you create more the reality you want.

Your Solution

- You discover yourself and your self in the context of the whole more holistically and recognize unexpected contexts, unblock and multiply power, get essential knowledge and insights, develop underestimated skills and successfully enter more suitable new territory.
- You learn to distinguish better the self from the ego and recognize how achieving your own goals works in a way that is also for the better for the whole. Success follows who follows the self and you deserve to invest in it.
- You grow further beyond your state and you get a more consciously defined vision, also by processing the past and working on the present, incl. supervision, to become the future you want.

Your Added Value

- You begin to further strengthen and develop the connection to yourself in a much more profound and holistic way. This connection also arises through expanded understanding of what this self is, which strengthens your self-awareness and self-value.
- The adjustment of values is a consequence from the more holistic view, from which also your monetary situation can develop to the better.
- The development of consciousness, power, knowledge and ability leads to the creation of more of the more consciously wanted realities.
- The experience of this kind of self-empowerment leads to sustainable self-unfolding, which results in more life satisfaction and a higher quality in dealing with your and more patients.

Methods of the Future

- This new age requires to approach developments more holistically and effectively/efficiently with acceleration what these methods enable.
- These methods are based on science, spirituality, strong intuition and phenomenology:
- Becoming aware of the Unconscious with different techniques, Program-Recognition and Re-Programming incl. Constellations, Purpose, Vision and Intentionalization, Personal- and Corporate Energizing, Strategic Intuition, Back-casting and Leadership of HyperTransformation.
